

Mozio®
Italian
Divine Luxury

Water Emotion

Bath Fittings
Collection 2024

DESIGN FIRST APPROACH

Mozio introduces a symphony of modern and timeless designs in coordinated decor. A collection of breathtaking creations that elevate ceramic aesthetics to unprecedented heights. Beyond bricks and mortar, a house is crafted with devotion and fondness. This same ardor resonates in every mozio creation, where conceptual design, innovation, and cutting-edge technology converge.

THE DRIVING FORCE

- Satisfy the desire for elegance and simplicity.
- Offer beauty and substance.
- “Progress Together” develop inspiring relationship with each of our stakeholders, customers, suppliers, employees and the society

WE ARE THE BEST, BECAUSE WE FOCUS ON

- Innovation in design as we continuously strive to bring you the best designs from across the globe.
- Each Mozio product promises you the best quality. Each product is backed by the “Mozio Warranty”
- Wide choice to suit each person’s individual requirement.

OUR PHILOSOPHY

Mozio attributes its success to its meticulous and diligent workforce. While we are obsessed about perfection and design, we also give attention to offering a rejuvenating experience to our customer. Innovation is the core of Mozio’s philosophy.

DESIGN GIVES THE LEADING EDGE

Perfect balance in form, function and usability is what makes for a design that stand out. Mozio maintains this harmonized design approach in all its bathroom concepts. A successful mix of environmentally friendly technologies, innovative production methods, market knowledge and years of design experience has given us a cutting edge over others. Our designs simplify the bathing experience with a combination of functionality and luxury.

Warranty Terms

- 1. The warranty is valid only with a GST invoice detailing the purchase of good.
- 2. The warranty covers only manufacturing defects of the product, which prevent its normal operation.
- 3. The warranty is not valid in case of damages which have appeared during transportation or as result of improper handling, installation, operation or maintenance.
- 4. If repair work is carried out by a person not authorized by the company, then warranty will be void.
- 5. Warranty shall be void if any modification or alteration of any nature is made to original product.
- 6. The warranty will not cover normal wear & tear of the product.
- 7. The Breakage due to any reason whatsoever is not covered under warranty.
- 8. The company is not liable for any damage out of faulty installation.
- 9. The company is also not liable to pay for any civil or construction work required during installation of Sensors & electrical components new products or replacement/repair of old products. Reinstallation of the spare parts to be carried out by the buyer.
- 10. Every product has limitations and in time may deteriorate from handling, cleaning or exposure to atmospheric conditions such as extreme climate, pollution, and proximity to salt water, humidity and ultraviolet rays. Eventual tarnishing is therefore, not a defect, but a normal process, which is unavoidable. Proper care would ensure that these products last a longer period.

Item	Residentail Use	Comercial use
Diverter	10 years	5 years
Faucets	10 years	5 years
Brass Ovehead Showers	10 years	5 years
ABS showers	2 years	1 year
PVD finish (Bath Fittings)	5 Years	2 years
Shower Hose	1 year	6 months
Concealed Cistern**	10 years	5 years
LED Lights	1 year	6 months
Health Faucets & Other allied items	1 year	6 months

* Any damage caused due to poor maintenance is not covered under the warranty.

** The warranty on the concealed cistern covers manufacturing defects, excluding general wear and tear of installed parts such as rubber washers and gaskets due to poor water conditions, including high TDS and STP water supply where applicable. The warranty on push plates is applicable on manufacturing defects excluding general wear and tear of surface finish due to poor maintenance

Whereas all highest grade material are used in our assembly, our decision on warranty claim will be considered final and binding.

Care Instructions for Bath Fittings

To ensure your Mozio product performs and gives many years of use, please follow these recommendations carefully, the majority of products can be cleaned with warm water, a mild soap and a clean soft cloth.It is not required to use any abrasive cleaning pads, wire wool or micro-fibre cloths to clean the product. Avoid a vigorous cleaning action. Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be detrimental to the product finish.

If using a spray cleaner, apply the cleaning agent onto a soft cloth, never directly spray onto the product as the cleaner may enter gaps and openings and cause damage. Residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, after shave and nail varnish can also cause damage, carefully clean these using the methods above. If a specialized cleaner is required, always follow the instructions provided on the cleaning product, this would include application and dosage. Always test the cleaning agent on an inconspicuous area before applying to the whole surface, do not allow the cleaner to remain on the product for an extended period of time. After cleaning, rinse thoroughly with clean water. Ensure that specialized cleaners are only applied to the specific area and do not come into contact with other materials that could be affected by it. We would not recommend the mixing of different cleaning agents. After cleaning, dry with a soft cloth.

Special care instructions for PVD and Special surfaces

The product can be cleaned with warm water, a mild soap and a clean soft cloth. Clean progressively and gently. The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, not a rubbing action. Cleaning with a damp sponge and buff drying should keep your faucet looking beautiful. It is not required to use any abrasive cleaning pads, wire wool or micro-fibre cloths to clean the product. Avoid a vigorous cleaning action, as this could contribute to denaturing and dulling the finish. Always test your cleaning solution on an inconspicuous area on the product before applying to entire surface. Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be detrimental to the product finish. Most toilet cleaning products (ex. Harpic) have high acidic content which can damage the finish, hence they should not be used to clean chrome finishes or PVD Finishes. If using a spray cleaner, apply the cleaning agent onto a soft cloth, never directly spray onto the product as the cleaner may enter gaps and openings and cause damage. Do not allow the cleaner to remain on the product for a period of time. After cleaning, rinse thoroughly with clean water. If limescale has built up on your product do not attempt to chip this off as this could damage the protective lacquer and lead to further damage. Several applications of lemon juice (not a concentrate) or white vinegar, followed by a thorough rinsing with clean water will slowly help to remove it.
